- ✓ Number of checkmarks indicates relative performance level.
- + Leader in performance as demonstrated against industry standards.
- ++ Leader in sludge protection as demonstrated by industry sequence VH engine deposit test.

* Against sludge, varnish and deposit. ** Based on Modified Sequence VIF Fuel Economy Retention Test @ 340 hours using SAE 0W-16; compared against Havoline PRO-RS SAE 0W-16. *** Low Speed Pre-Ignition. **** Lower carbon intensity on a lifecycle basis compared to PRO-DS SAE 0W-20 viscosity grade; lifecycle analysis based only on cradle-to-gate analysis and doesn't include carbon intensity for end-of-life or any in-use aspects of the lifecycle analysis.
